TetraKO, LLC Adds Randy Wahl as Sales Manager

South St. Paul, Minn. (May 10, 2013) – TetraKO, LLC, the fire suppression subsidiary of EarthClean Corporation, announced today that Randy Wahl has joined the company as Sales Manager. Wahl will report to Scott Bocklund, President of TetraKO, LLC. Prior to joining TetraKO, LLC, Wahl worked for 12 years with the Waterous Company, Fire Pumps Division, most recently serving as a regional sales manager for a 12-state territory that stretched from Minnesota to Texas.

“Randy has an excellent track record of service and support among a wide range of fire service customers,” said Bocklund. “His experience with fire pumps and foam systems operations will be invaluable as we aggressively move forward with new products and delivery systems for TetraKO® technology.”

Wahl will be responsible for introducing and supporting TetraKO water enhancer and proprietary delivery systems to fire apparatus OEMs, distributors, and fire departments. Wahl is a retired firefighter from the Chanhassen Fire Department in Minnesota where, during his tenure, he served in many positions from firefighter to assistant fire chief. Randy also comes to TetraKO, LLC with many certifications towards his Fire Science degree; he has also provided instruction in the use and operations of Class A and B foams at a local technical college.

About TetraKO, LLC

TetraKO, LLC is a company that helps firefighters attack, suppress, and contain fires. TetraKO, LLC is a wholly owned subsidiary of EarthClean Corporation, a Minnesota-based clean technology company whose mission is to develop and introduce environmentally friendly and biodegradable technologies. A team of engineers, scientists, and firefighters developed TetraKO water enhancer. Visit www.tetraKO.com for more information and to see the product in action.
